SUBJECT: Information Security R&D

REF: SECOM D-055

    1.   Chief TSD participated in the IR&DC study as did [ ]   25X1
[ ] It would seem advisable to make sure SECOM   25X1
participants see the appropriate sections of that study since it
impacts on all of us. Much of what we have included here comes from
a study done by an independent contractor for ORD on the whole
issue of integrated security related threats and the R&D needed to
address them.

    2.   Responding to the referenced request for detailed
information, we labeled the six (6) descriptors for "information
security", A through F. These reference characters appear to the
left of the project description. The appended descriptors below
will be followed by the brief project information.

DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee

SECOM-D-055

26 February 1985

MEMORANDUM FOR: SECOM Members
Chairman, R&D Subcommittee

FROM:

25X1

Chairman

SUBJECT: Information Security R&D (U)

1. In response to tasking by the Deputy Director of Central
Intelligence, the Intelligence Research and Development Council prepared a
study of research and development to counter the foreign intelligence
threat. This study recommended, inter alia, that the Security Committee
review Community-wide information security R&D requirements and submit a plan
for DCI approval by spring 1985. The study identifies information security as
including:

25X1

2. The object of the SECOM review and plan is to gather data supportive
of a recommendation for increased R&D funding in this area. These data need
to identify what is being done and planned with existing funds, and what else

25X1

SECRET

SECRET

needs to be done, in priority order, without regard to existing funding levels. Some data bearing on this were obtained in connection with plans for FY-85 SECOM R&D using budgeted funds. Responses covered only a few of the areas identified above.

25X1

3. Addressees are requested to identify all information security R&D being done in FY-85 and planned for FY-86 and following years. As a separate item, R&D projects that should be pursued in the information security area, but which were not formally requested because of budgetary constraints, should be identified and ranked in priority order. Responses by 22 March 1985 would be appreciated.
